Redbird Armor Attends 2009 International Swine Flu Conference

Darlington, WI – Redbird Armor™ will be exhibiting at the 2009 International Swine Flu Conference in Washington DC, August 19 to 21, 2009. Representatives will inform key stakeholders in the pandemic planning community of the attributes of the revolutionary NT-V Mask, the newest in a line of pandemic preparedness products. The mask is a NIOSH approved N95 respirator that neutralizes viruses and bacteria on contact.

Redbird Armor, distributors of the revolutionary NT-V Mask™, continues to add products to its pandemic preparedness offerings.
